Storyboard Drawings

Please do NOT number the storyboards (they are not in the proper sequence)

8. LOOKOUT in Sinking Dinghy

Closeup of LOOKOUT standing ankle deep in water as his small boat sinks.

Background – Shark Fin. The boat sports a large, noticeable stream of water.

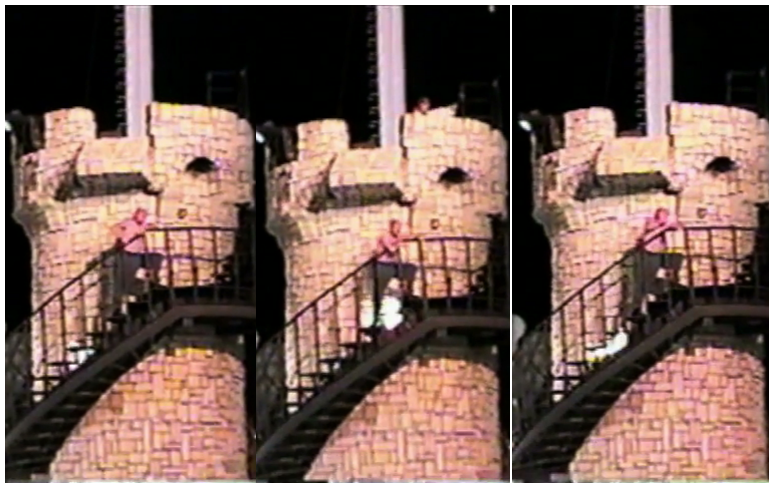

9. NAGAs!: LOOKOUT has just turned around and is startled by 3 NAGAs in lagoon BLACKSTONE Ship (background) –

The action is the NAGAs had just been curious and quiet while LOOKOUT was distracted with something else. The frame captures the moment when LOOKOUT turns to see what the audience is clamoring about and (just like the moment when Elliott first sees ET, both human and creature are scared /startled)

The position of the NAGAs are above the surface of the lagoon but not high... (no hoses or foot platforms visible) – They look like sea creatures and the costumes are visible from waist up. They are magical, not menacing. This is the set-up frame for the celebratory, magic frame described previously.

10. BLACKSTONE CREW – “WORKING SONG” FRAME: The whole lee side of the BLACKSTONE ship docked at the mooring dock. The crew of the BLACKSTONE SHIP are loading crates of pottery (historical reference) and preparing the ship for sea passage. PRINCESS PING dances with WAYBILL and CAPTAIN is happy. This is a “Whistle while you work” scene... all the workers happy and dancing. Two crew members are performing a flip (professional – pike position) off the side of the ship. Focus is on ship and deck however in background (beyond ship) is mooring tower.

11. DANCING FLAME: LOOKOUT is being chased up the SR TOWER (“Flame Tower”) by a flame that seems alive. The flame follows LOOKOUT up the stairs and he is comedically frightened by it.

[Flame Video Download](#)

12. COLLAPSING TOWER:

The SL downstage tower collapse as the pirates attack. There are flames, smoke debris and a huge splash as the tower crashes into the lagoon. Please use the look and theming reference of collapsing tower (which is SL Tower) in the rendering that David provided you.

One added element to this scene is a performer (Pirate) needs to be blown off the tower before it collapses

13. PRINCES PING and CHANDRA fight. Girl-on-girl fight near audience.
CHANDRA should have a sword or smitar and PING kicks it from her hand doing backflip kick

14. SAIL TEAR: WAYBILL (BLACKSTONE first mate) performs a SAIL TEAR slide on the BLACKSTONE ship.

NOTE: There are no shrouds on this type of ship. The orientation of the sail is different... Not parallel to audience, but instead perpendicular to audience, so, the sail tear is in profile.

Reference: [Sail Tear Video Stream](#) [Sail Tear Video Download](#)

15. EXPLODING SHACK – LOOKOUT is coming from the exploding shack, pants on fire. The shack is storage for gunpowder and needs to be themed like buildings on the shoreline.
